Livestream Services on FaceBook

You do not need to have a Facebook account to view our Livestream services. However, Facebook makes it appear as if you do need an account.

Here is how to get around this:

1) Visit: https://www.facebook.com/The-Episcopal-Church-of-the-Redeemer-108638680872438

2) Our Redeemer Facebook page should appear along with a Facebook Sign in banner. Ignore the Log In or Create New Account fields. CLICK ON THE “Not Now” words at the bottom – see red circle.

3) At this point you can scroll through the page as you would any web page. Since our page is public anyone can view it. However, without a Facebook account you will not be able to make comments.

4) On Sunday mornings, the LIVE video should appear automatically on the page. We usually start recording 2-3 minutes before the posted service time.

5) If you do not see the Live video automatically, if you missed the most-recent service and would like to see it, or you would like to view previously recorded videos, click “Videos” under the options on the left-hand side of the screen (see image below).
